BASKETBALL RULES PLAINER COMMITTEE EXPLAINS PUZ-ZLING POINTS.

gulations About Running With the Ba ing Are Cleared Up at Elucidation Meeting at Columbia -Work of Board to Choose Officials.

The etucidation meeting for this section country of the Intercollegiate Basket des committee was held yesterday Columbia gymnasium. R. B. Hyatt, frman of the committee, assisted by rry A. Fisher, Ralph Morgan and Lieut. W. Stillwell, U. S. A., went over the rules game as cast for this season, explain-ach regulation in turn and answering about it too. There were demm. Charles Keinath, the Pennsyl-coach; P. E. Hehir of Worcester and Imer of the City College asked a numions, and their inquiries brough most of the explanations that

rule regarding running with the was one thing that caused much of the sartier discussion. In fact this took up bout an hour of the time. This is rule 8, ds, according to the 1903-10 book, as

If a player shall, while having the ball in his possession, advance in any direction, he shall be considered as running with the ball.

Note.—It is understood that a man may advance one foot in any direction, but the remaining the must be kept in position until the ball bee left his hands. In throwing for goal a man may jump from both feet, but the ball must leave his hands before one or both of his feet again much the foor. Due allowance is to be made for a player catching the ball while running, provided he stops as soon as possible. A player with the ball in his cossession who changes his position without appreciably advancing the ball in any direction shall not be considered as running with the ball; neither shall a player pushed by man of the opposing side be considered as running with the ball.

me of the opposing side be considered as running with the ball.

It was agreed, after some talk, that the first two sentences of the note were so worded that a player almost never could shoot from a run after catching the ball on a pass, and that the only permissible shooting would be that done flat from both feet, as it was in the early stages of the game many years ago. This style of shooting is not as accurate and graceful as the present one hand leaping style. It was decided therefore to eliminate the first two lines of the note, and with this change the rule reads exactly as it did last season. There was a long explanation of the rule about dribbling, and it was made clear just what the committee thinks constitutes a ball in motion. Hitherto the emphasis put on the stopping of a dribble referred to the player himself coming to a full stop. This regulation, it was agreed yesterday, led to the opponente playing the man rather than the ball.

It is the chief object of the new game to

Ann the ball.

It is the chief object of the new game to urive at a stage in which the ball shall be attacked rather than the man. This will lead, it is believed, to less roughness. The rough play is what has earned enemies or the game of basketball as played in the

The rough play is what has earned enemies for the game of basketball as played in the colleges.

It was made clear that when a player comes to a halt in a dribble it is a permissible play if he keeps the ball passing from one hand to another or bounces it on the floor or tosses it into the air. Keinath, an expert at the dribble, gave examples of the plays that are silowable.

The other rules of the game were passed upon in a sketchy fashion. It was determined that most of the important decisions as to roughness were left in the keeping of the officials. Frank V. Goodman, the former Columbia player and now an official, believes that there is too much latitude—that too much is left in the hands of the officials and not enough stated exactly in the rules on the mooted points.

A rule of the game that time out may be taken for a team only three times in each half was discussed at length. If a team asks for time out more than the limit number of times it is necessary for the team to substitute at once for any player for whom time out is asked a fresh player.

Those who were there yesterday in addition to those already mentioned were cadet Milliken, captain of the U.S. M. A. team; Lane, Dartmouth: Hayward, Westeyar, Yates, Tracy and O'Shea, St. John's: Afeld, Cornell: Platt and Eames, Yale, Layrence, Pennsylvania; William Lush, couch of the U.S. N. A. team; Kiipatrick, Syracuse; Klendi, Golumbia: Wallace, Williams; Swaffield, Brown; Dixon, Montclair H. S.; Deering, Manhattan; Prince, Pennsylvania; Shorter, the Princeton coach; Townsend and Goodman, Columbia; Poggi, Lavier A. C.

work of the officials designated to act at the various games.

These blanks give information as to the way the official handled the various situations that arose and give the line on whether or not he is competent and understands the rules of the game. The central board has compiled a long list of officials for basisatell games, and although there is no intercollegiate league existing in this section it is believed that this will result in excellent control of the game herenbout.

The central board made this statement:

The central board made this statement:
In presenting this year a directory of officials the rules committee (through its central board of officials) feels that a considerable step has been taken for—the betterment of basketball conditions. Whether or not the directory proves a success depends largely upon the support accorded by captains, coaches and managers of teams all over the country.

The directory is national in scope and has been compiled during the last two seasons of basketball. Only such officials as have proved themselves thoroughly competent have been included. Naturally all the available men have not yet been listed, but as soon as possible the directory will be enlarged to include all officials qualified to serve in championship contests.

If an official not on the present list will secure recommendations of fitness from at least two teams of standing his name will be inserted in the next edition of the directory. This should be attended to at the earliest possible moment, as the rules committee will in all probability issue a corrected directory in pamplet form in mid-season of 1910. The corrected directory will be sent to every person who remits two cents postage for it.

Coaches, captains or managers are requested

Cosches, captains or managers are requested
if the report on the work of officials in every game.
If the reports are made conscientiously a true
indication of the work of each official may be
had, and the directory will prove to be a valuable
help in a very short time. All reports will be
regarded as confidential. We cannot emphasize
the point too strongly, however, that it is only
with the unqualified cooperation of the captains,
coaches and managers of teams that the rules
committee can maintain this directory of officials.

Officials should keep in touch with the central
board of officials. From time to time interpretation meetings will be held by the rules committee
in different sections of the country, and from
time to time explanatory literature will be mailed
to the officials listed in the directory.

Derogatory reports from several teams of the
work of any official on the list will be considered as
sufficient to cause the removal of the official's

POINT TO POINT RACES.

WESTBURY, L. I., Dec. 4 .- Some good wastbury, L. I., Dec. 4.—Some good sport not unmarred by several nasty croppers was the order of the day at the point to point race of the Meadow Brook Club here this afternoon. The course was not announced until just before the event was called, and when Thomas Hitchcock sent the restive, eager horses away there were called, and when Thomas Hitchcock sent the restive, eager horses away there were twelve in the group. The start was from a high hill in the Wheatley Hill section of the island. The race was divided into two classes, one for lightweight hunters up to carrying 185 pounds, the other for heavy-weight up to carrying 185 pounds, the other for heavy-weight up to carrying 185 pounds to hounds. H. M. Harriman offered the cup for the latter class, while the trophy in the lightweight class was put up by W. R. Grace.

W. D. Holloway was the first man to find difficulty. His horse bundled him at the first fence and he was obliged to chase him a considerable distance before he got a remount. He had hardly made two fields in an effort to make up for lost time when the animal stumbled, throwing him heavily. Holloway managed to stagger back to the draggled with blood.

Malcolm Stevenson came to earth with a thud which knocked him senseless at a double jump in an apple tree orchard near a farmhouse. When he did not recover consciousness Dr. John Mann of Old Westbury was sent for and Mr. Stevenson was removed to the farmhouse. Dr. Mann found that the rider was badly shaken up with slight contusions, and he was removed to the farmhouse. The Mann found that the rider was badly shaken up with slight contusions, and he was removed to the Meadow Brook Club.

The race itself soon narrowed down to a fight between Philip Carroll's Cedric and Devereaux Milburn's Rufus. The latter finally won the heavyweight class by about ten lengths. J. E. Davis, on Relentlees, captured the cup in the lightweight class. Heavyweight Class—Robert Bacon's Rufus (Mr. Milburn), first Philip Carrol's Cedric Mr.

LUCKY WIN FOR FAVORITE. Giorio's Remarkable Strete : Run Sucereds at Juarez.

JUANEZ, Mexico, Dec. 4 .- The cold weather had the effect of keeping the attendance down to a thousand at Juarez to-day, but nevertheless some high class fourth event, at seven furlongs, it was only after a remarkable stretch run of the favorite, Glorio, that he was able to win. The favorite was many lengths behind at the turn into the stretch, but here C. Henry began to ride. He was lucky, however, in finding an opening next to the rail when Right Easy, the early pacemaker, began to tire. At the furlong pole Pedro, Right Easy and Glorio were heads apart with the favorite in close quarters, but the boy managed to drive him through. Pedro and Glorio then drew away and in a terrific drive Glorio managed to win by a nose from Pedro, who in turn was three lengths before Right Easy.

Jimmy Blute kept up his remarkable work by winning the first two races. His two horses were played heavily by the stable connections. The talent had a very profitable afternoon as five first choices won. The summaries:

Heskowitz was back again at guard, where he added 14 points to the score, but covered his opponent poorly, and the latter tried to balance matters with a points. The local players showed their superiority in passing, but their shooting was poor, almost as bad as that of the Jerseyites. At one time in the game Seton Hall led by one goal, which advantage was quickly overcome.

by one goal, which advantage was quickly overcome.

The game was close throughout the first half, which ended with the score of 17 to 11. In the second half the local players found the basket and when the game was safe Kaufman, Gorshen and Kaplan replaced Sedransky, Goldman and Mueller. Seton Hall seemed to have a one man team, Bruggy being the only one who thoroughly understood the game. He was fast, did practically all of the scoring and was the pivot of nearly all the team work.

In the preliminary game the freshman team defeated the Brooklyn Training School by the score of 31 to 5. Mester at forward and Mackler, centre, did the best work for the youngsters.

Instructor Gus Lundstrom gave an exhibition of fancy swimming which was greatly appreciated by those present.

HITTE PUTS AWAY CURZON. Enduring Courage the Briton Had, It Ap-

pears, but It Didn't Win for Him.

Special Cable Despatch to THE SUN.

Paris, Dec. 4.—Charlie Hitte knocked out William Curzon, an English pugilist, in the eleventh round of a match here tonight. Curzon is boxing teacher to the Royal Horse Guards, London. He defeated Hogan, the French champion, in two rounds. Hitte was extremely clumsy, but he put in terrible blows. Curzon showed some skill, but his blows had no effect. He had the advantage on points in the first two rounds, but Hitte ought to have finished him in the third round. He was unable to profit by his opportunities.

In the seventh round the boxing was villainous. Curzon showed enduring courage, but Hitte did not know how to take advantage of his strength. In the eleventh round Curzon was put out, more through being exhausted than by Hitte's blow. The attendance was large. Curzon is boxing teacher to the night

PENN WINS AT RUGGER. Unfamiliar Game Puzzles the Crowd at Franklin Fleid.

PHILADELPHIA, Dec. 4.—The University of Pennsylvania English rugby team defeated the Brooklyn Nomads at Franklin game by the score of 6 to 5. Owing to the recent discussion about a chance of substi-tuting the English for the American rugby game a number of students were there to see the game played.

The students, however, were not very favorably impressed with the game and only when the visitors rushed the ball to Penn's 5 yard line did they show, any enthusiasm.

5 yard line did they show, any enthusiasm. In this one particular case when it looked as if the visitors would make a touchdown the couple of hundred students scattered along the side lines grouped themselves and gave the team a rousing cheer.

Pennsylvania seemed to have a more experienced team than did the Nomads and scored a try early in the first half and again in the early part of the second. They falled, however, to kick goals after each try. In the last few minutes of play the visitors scored their one try and made the goal just before the whistle blew for the end of the game.

When the men reappeared from behind the bouses at the beginning of the homestretch the four leaders had allowed the others to close up and they were well bunched at the end of the lap. Ruggiero, Rooney, Vessee and McDonald still were in front.

The stragglers began to drop out in the second lap, but only three of the seventy-four starters failed to finish. Ruggiero and Vessee led McDonald by fifteen yards and Rooney was running fourth. Rooney passed McDonald before he began the last round; beyond that there were no changes in the first six positions. Ruggiero drew away on the stretch, finishing easily, with fifteen yards to spare.

mystery surrounds his death, all that is known being that the owner of the horse. C. Horace Nelson, informed a friend that he "had put the old horse away to-day." Last night Mr. Nelson would neither admit that the horse was dead or alive. He admitted digging a graye for the horse and said that the old favore was injured more than a year ago and, had not been har nessed since. He also intimated that the injury had a serious effect on the horse and that for some time he had been slowly falling.

Nelson was foaled June 12, 1882, and was sired by Young Roife, 2:21%, by Tom Roife, 2:33%. The dam of Nelson was Gretchen, by Gideon. As a two-year-old he attracted much attention and when 3 years old madea record of 2:23%, the fastest mile made up to that time on a half mile track.

At 7 be made a mark of 2:14% and in 1800 at Kankakee, Hi., he captured the world's staillon record, 2:12. Two days later, at Terre Haute, he went a mile in 2:11% Hended the season of 1800 with a mark of 2:10%. In 1891 he made a mark of 2:10 at Grand Rapids.

Nelson did little work on the track in 1902, but the following year he lowered his mark to 2:00.

When the stallion was at his best Mr. Nelson is said to have refused an offer of \$100,000 for him.

Yale Soccer Team Beaten

NEW HAVEN, Conn., Dec. 4.—The Tale soccer team was defeated this afternoon at the Yale field by the Crescent A. C. team of Brooklyn by one goal. Neither side scored until late in the first period when

Kerr after a scrimmage in front of the goal got one through for the Crescents and that ended the scoring for the game. Yale forced the play throughout. The detence was strong for both sides, the work of the Crescents' fullback being especially noticeable. Andrew McClelland and Kert played well for the visitors. Hyde Goddard, Prince and Foerster did the best work for Yale. This ends the fall season for Yale.
